

EGILSSTADIR AIRPORT — INTERNATIONAL GATEWAY

Egilsstadir International Airport has one runway, 2000 m for takeoff and 1850 m for landing. It is 45 m wide and can safely serve commercial jets. The airport is up to high standards with Aerodrome Flight Information Service (AFIS).

The fire and rescue service at the airport is in accordance with ICAO category 5 and can be raised to category 7 on request. Egilsstadir International Airport is located in the east of Iceland which requires excellent winter services. The airport is very well equipped for snow removal and is open all year round.
